

Exploring types of Scientists Research Page

Directions: You have randomly drawn a study of science. Your assignment is to explore the purpose of your branch of science and to imagine your life as that type of scientist. Fill out the following questions so that tomorrow you can create a real sketch of your scientist. It is ok to use the internet, encyclopedia, or books to find your answers. Please see the example that we did in class if you have any further questions at home.

Branch of Science (-logy word): _____

Definition: _____

Individual who studies that branch of science (-ist word): _____

Describe the environment this scientist may work in.

List what types of clothing this scientist may wear.

List what types of tools that this scientist may use.

****Now use the information that you have written down to create a sketch of the scientist that you studied. Include clothes, tools, and work environment of your scientist****
